

Hi there,

We hope you found everything you need on this portal to set up the perfect work-from-home office space.

Please keep in mind that all office furniture and supplies that you might order for your professional use remain in Tony's possession, on loan to you.
And that the budget should not be used for any other party but yourself, a proud and loud Tony!

This office furniture will be depreciated over 5 years (divided within 60 periods of 1 month each).

If you leave Tony's within these 5 years, you can take over the furniture for its rest value.

And because we sometimes love stating the obvious, take good care of it and make sure you'll not hand it back in a shape that would make the person who raised you blush..

Team Tony
